6. Yuval Noah Harari, *Sapiens: A Brief History of Humankind* (New York: HarperCollins Publishers, 2015).
7. Esteban Ortiz-Ospina and Max Roser, “Marriages and Divorces,” published online at OurWorldinData.org, 2020, <https://ourworldindata.org/marriages-and-divorces>.

Chapter 21

1. Adapted from Frederic Laloux, *Reinventing Organizations: A Guide to Creating Organizations Inspired by the Next Stage in Human Consciousness* (Brussels: Nelson Parker, 2014).
2. It should be noted that there are a number of core organizational elements that are not mentioned in our shifts but which continue to be relevant. For example, effective decision-making, clear roles and responsibilities, fair reward and remuneration,

high-performing teams, customer focus, and so on. In addition, the right functional excellence (e.g., finance, marketing, operations) are not touched on here in detail but are of course vital to organizations. There are various organizational effectiveness and functional diagnostic tools available to measure and manage these elements. The organizational shifts we focus on are additional layers to an effective organizational foundation.

Chapter 22

1. The tournament actually took place in 2021 due to the COVID-19 pandemic, but it maintains the name UEFA Euro 2020.
2. Sophie Mellor, “UEFA’s ‘Own Goal’—Euro Cup Sponsors Stumble in Biggest PR Crisis in Years,” *Fortune*, June 24, 2021, <https://fortune.com/2021/06/24/uefa-pride-flag-euro-cup-hungary-soccer/>;
